

EZ AIR

SPECIFICATIONS

CERTIFIED HEPA FILTRATION: Individually certified HEPA filter with 80 square feet of media removes airborne dust, allergens, particulate and mold with hospital grade efficiency. All filters are individually tested and certified to guarantee 99.99% efficiency at .3 microns, and they are mechanically sealed within the cabinet to prevent air bypass. This allows EZ AIR to operate at HEPA efficiency.

ACTIVATED CARBON: Three and a half pounds of carbon and zeolite are incorporated into the prefilter to remove harmful odors, chemicals and gases. Low Prefilter costs encourage regular carbon replacement to maximize unit odor and chemical adsorption efficiency.

DIMENSIONS AND WEIGHT

15W x 15D x 19"H, 38 lbs.

AIR FLOW

Full Variable Speed Control, 350 cfm on High

ELECTRICAL

115V/60Hz @ 1.0 amp or 220V/50Hz @ .5 amps

FILTERS

PREFILTER: Carbon pack with 3.5 lb. of activated carbon and zeolite. Three filters (a year's supply) included with each unit.

HEPA FILTER: 14 x 14 x 3 5/8", individually certified as 99.99% efficient @ .3 microns

POSTFILTERS: 14 x 4 x 3/4" Carbon Pads

CONSTRUCTION

Heavy Duty 20 gauge steel cabinet on four durable 2" hooded casters, with convenient back panel access to all replacement parts. Standard powder coating is Black, White or Sandstone.

MODEL	2006 Cost	CFM	Certified HEPA	Carbon LBS.*	Annual Cost **	Individual Carbon/HEPA	Tools Needed for Maintenance	Filter Indicator
EZ AIR	\$425	350	YES	10.5	\$93	YES	NO	YES
Austin Air Healthmate	\$449	400	No	15	\$179	No	Yes	No
